Product reference

Puff Reborn

Composition

Fabric: 97% mixed fibres (recycled)/ 3% CO. Filling: 100% PES (recycled)

Brief description

Puff produced with company wastes from the weaving and cutting processes. To produce the fabric, using the weaving process wastes (selvedges), the company has adapted one of its looms to be able to use the selvedges wastes as weft:

And the filling in the puff is made of the wastes from the cutting process, recovering the cut parts of the company quilted textiles:
